

# RAGESH V R

## ARTIFICIAL INTELLIGENCE ENGINEERING STUDENT

Location: Idukki, Kerala, India    Phone: +91 6238149081  
Emails: rageshv214@gmail.com | rv4102@srmist.edu.in  
LinkedIn: linkedin.com/in/ragesh-v-r-a18525392    GitHub: github.com/rageshv214-bot

## EDUCATION

|                                                                                                                                                                                                                                                                                                                              |                                                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| <b>SRM Institute of Science and Technology (SRMIST)</b><br><b>Bachelor of Technology (B.Tech) in Artificial Intelligence</b> <ul style="list-style-type: none"><li><b>Relevant Coursework:</b> Object-Oriented Programming, Data Structures, Machine Learning Foundations, Embedded Systems, Engineering Graphics.</li></ul> | Expected Graduation: 2029<br>Kattankulathur, Chennai |
| <b>St. Jerome's Higher Secondary School</b><br><b>Higher Secondary Education</b>                                                                                                                                                                                                                                             | Vellayamkudy, Idukki                                 |

## TECHNICAL SKILLS

|                                     |                                                         |
|-------------------------------------|---------------------------------------------------------|
| <b>Programming Languages</b>        | Python, Java, C                                         |
| <b>Libraries &amp; Data Science</b> | Pandas, NumPy, Jupyter Notebooks                        |
| <b>Tools &amp; Version Control</b>  | Git, GitHub, AutoCAD (3D Modeling & Geometric Drawings) |
| <b>Hardware &amp; Embedded</b>      | Arduino, RFID Modules, Servos, LCD Displays             |

## ACADEMIC & TECHNICAL PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                     |                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>OOPS Banner Application</b> <ul style="list-style-type: none"><li>Developed a modular, Java-based desktop application utilizing core Object-Oriented Programming (OOP) design principles.</li><li>Managed the project codebase using Git, employing strict version control, branch management, and clean merge workflows to track feature development.</li></ul> | Java, Git           |
| <b>RFID-Based Automated Entry System</b> <ul style="list-style-type: none"><li>Designed and built an internet-of-things (IoT) style hardware prototype for secure access control.</li><li>Integrated RFID sensors, microcontrollers, servo motors, and LCD displays to process real-time authentication data and automate physical access mechanisms.</li></ul>     | Arduino, Embedded C |

## Problem-Based Learning (PBL) Research

Technical Communication

- Collaborated within a cross-functional group to research and author a comprehensive problem-solving script and project presentation report.
- Presented technical solutions systematically, refining team-coordination and technical documentation skills.

## LEADERSHIP & EXTRACURRICULAR ACTIVITIES

---

### Scouts and Guides

8 Years Experience

#### Active Member & Patrol Leader

- Dedicated 8 consecutive years to community service, rigorous physical training, and camp management, fostering high levels of discipline and civic responsibility.
- Led patrol units during regional camps, organizing group tasks, survival drills, and public service initiatives under high-pressure environments.
- Developed core foundational soft skills in teamwork, peer mentorship, crisis management, and structured communication.

## EXPLORATION & INTERESTS

---

- **Computer Electronics:** Regularly track and analyze hardware iterations, consumer tech architectures, and mobile platform optimizations.
- **Linguistic Skills:** Native speaker of Malayalam, proficient in English, and actively learning basic Japanese (Romaji and Kanji).
